Built-In Oven 738006 BSA6737E15X

USP :

Door type	Double glazed oven door with one heat deflector (CompactDoor)
SoftOpen and GentleClose door hinge	Only a soft touch is needed to open or close the oven door smoothly, without any noise.
Oven type	Baking with steam BigSpace - 77 l SuperSize baking area
TouchFree Inox	✓
Maximum oven temperature	300 °C
Dynamic oven cooling plus - DC+	The DynamiCooling system efficiently cools the oven exterior (or housing) to prevent any damage caused by high temperature. In ovens with the DynamiCooling+ system, the heat sensors regulate the cooling of the oven exterior walls until they reach a temperature of 60 °C. This is particularly convenient in ovens with the pyrolytic cleaning function which works with extremely high temperatures.
SuperSize	✓
SteamAssist	By adding the water into the water tank in the control panel you'll get perfect steamed food and crunchy crust. When choosing a program, which is having the possibility to add steam in the baking process, the oven will let you know when the time is right. Depending on the model of the oven, you have to press a central knob or either touch the function on the display to activate the steam injection.
HomeMade Plus shape	Gorenje ovens are well known for their innovative rounded cavity, which has been their distinctive feature for many years. The HomeMade shape was inspired by the traditional wood burning ovens and ensures better circulation of air compared to competitors. Now, the HomeMade shape has been completely revamped and the airflow perfected due to a new heater design and the improved distribution of the ventilation openings. That is why the temperature is stable throughout the oven. Never again will your dishes be burnt on one side and underdone on the other.
Circular heater	✓
GentleBake	This function is all about gentle, slow and even baking. This way, the moisture is locked inside and the food stays staying super tender and juicy. Suitable for preparing meat, fish or pastry on one level.
FastPreheat	OptiBake ovens reach a temperature of up to 200 °C in just 5 minutes, saving 30 % of the time needed by standard preheating and making them one of the fastest ovens on the market. This is very convenient for recipes that require a preheated oven. A light and sound signal informs you when the temperature is just right.
Large infra heater	✓
AirFry	Now you can have the crispiness and tastiness of fried food without the extra calories. This method of extremely intensive baking with hot air doesn't require any fat to ensure that perfectly delicious crunchy golden crust. In combination with special perforated baking tray, (depending on the model), that perfectly encapsulate the dish all around, you will achieve even better results. Suitable for small cuts of meat, fish, vegetables and pre-prepared frozen products, like French fries and chicken nuggets.

FrozenBake	This efficient baking program is the perfect choice for all frozen food and pre-prepared meals.
Interior light	Above
Pizza function	This program with setting of baking temperature up to 300o C was specifically designed to help you bake the perfect pizza, focaccia, flatbread and similar baked delicacies.
PerfectGrill	The best baking results are achieved with a combination of larger and smaller heaters, where the latter is positioned inside the larger one. The smart positioning of the heaters allows optimal heat distribution and provides the ultimate baking results every time, so food is crispy on the outside and soft on the inside.
EcoClean enamel	✓
Catalytic fan cover	✓
